

# "CREATIVE CONNECTIONS: SOLVING TOGETHER, CREATING TOGETHER"

Grade: 8<sup>th</sup> Grade

Subject: ART

Date:

Topic: Art as a Variable

Context: K-12 Classroom

Lesson Focus and Goals:

Students will reflect on the process by evaluating how their choices contributed to the unity, message, and aesthetic of the overall piece.

## PROBLEM SOLVING

UDL:

Students are welcome to request or bring in materials they feel most comfortable using

Learning Objectives:

- Apply a variety of art techniques and media appropriately within a collaborative composition.
- Maintain craftsmanship and care with materials, demonstrating appropriate brush handling, paper preservation, and cleanup.

Questions:

How can we combine our individual styles or ideas into a unified piece?

What materials and techniques will best support our vision?

In what ways can our collaboration enhance the creativity of the final product?

# VOCAB

## Collaborate

- "Work jointly on an activity, especially to produce or create something"

## Inquiry

- An act of asking for information

## Mark Making

- the intentional creation of lines, textures, and patterns on a surface, using various tools and materials, to express ideas, emotions, or create visual effects in art and design

## Expression

- the process of making known one's thoughts or feelings.

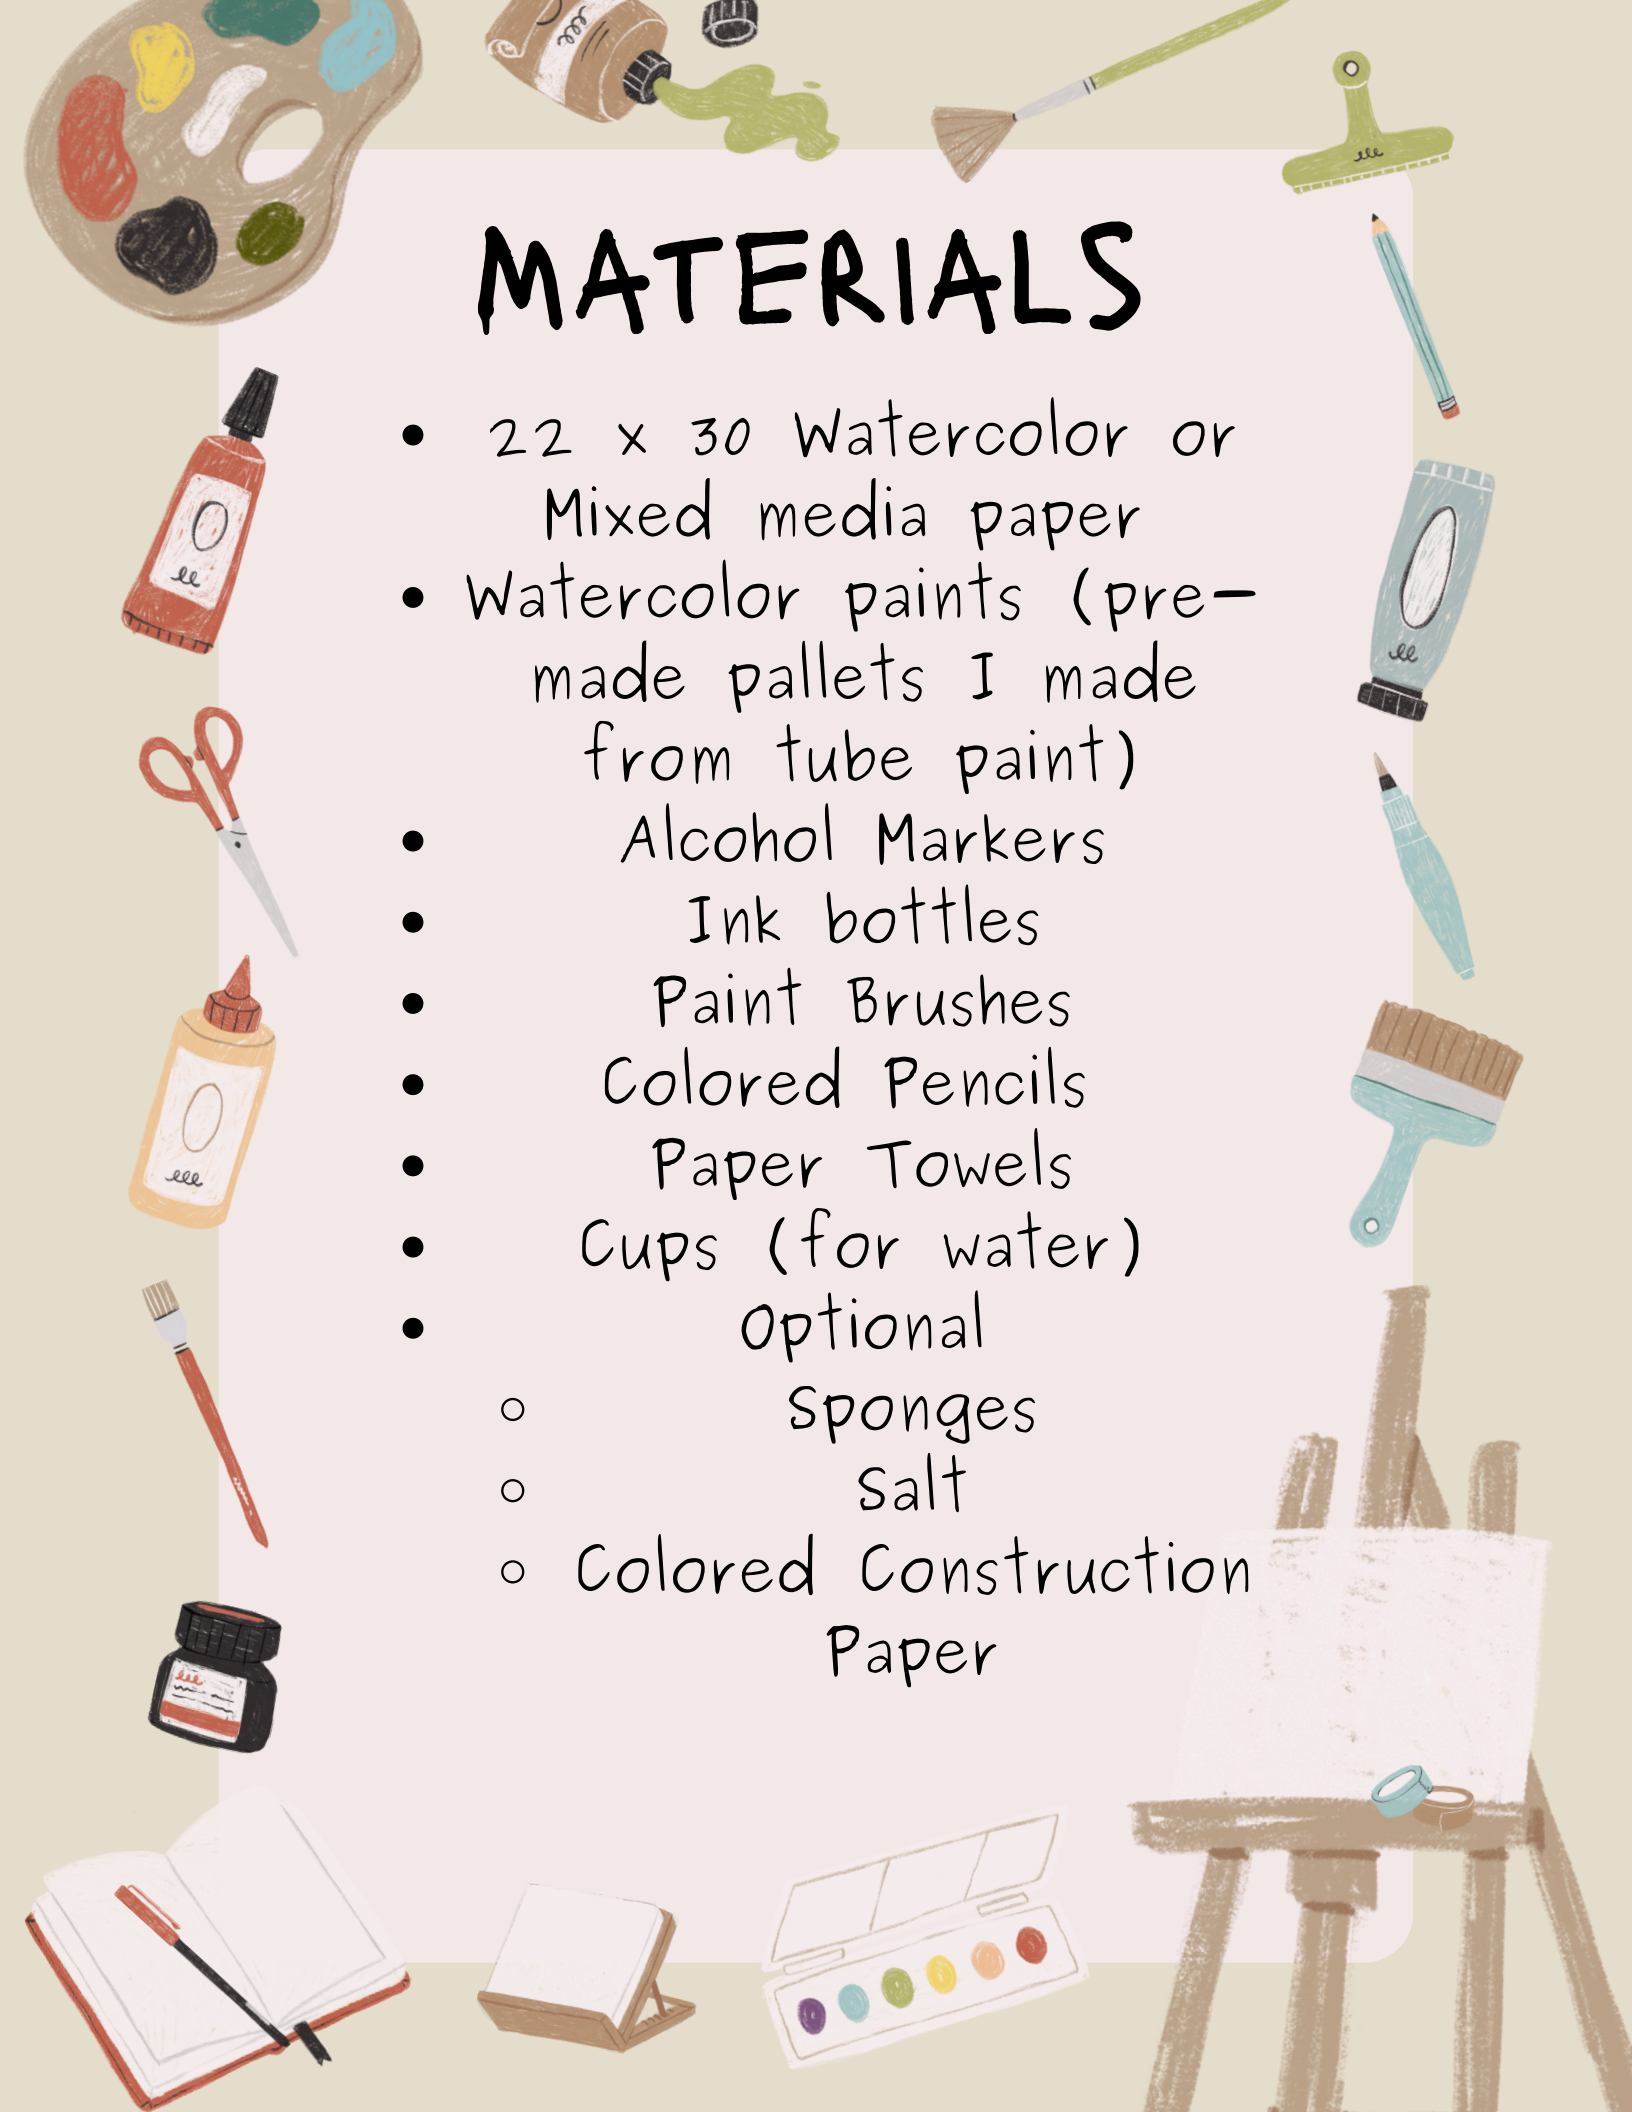

## Cohesive

- the action or fact of forming a united whole.

## Intention

- idea that you plan (or intend) to carry out

# MATERIALS

- 22 x 30 Watercolor or Mixed media paper
- Watercolor paints (pre-made pallets I made from tube paint)
- Alcohol Markers
- Ink bottles
- Paint Brushes
- Colored Pencils
- Paper Towels
- Cups (for water)
- Optional
  - Sponges
  - salt
  - Colored Construction Paper

# LESSON PLAN (5-7 DAYS)

Optional:

(optional based on class proficiency and prior knowledge)

## Day +1 (Mark Making)

- Short presentation on main ideas for the week
- Introduce a mark making activity for class to complete for the rest of the class period.

## Day +(2-3) (Watercolor)

Introduce watercolor activity/ demo

Spend 1-2 class periods based on students progress on activity

# LESSON PLAN

"Creative Connections: Solving Together, Creating together"

## Day 1

- Present activity and discuss teacher example
- Begin activity
  - Class will be split into small groups
  - Before beginning students will trade papers with a groupmate and will be instructed to mark make however they please. This could be an actual drawing (that can be completed within the allotted time and not consuming more than  $\frac{3}{4}$  the page) or experimental mark making. Once this step is complete students will trade papers back to their respective peers and continue to create a 2-D art piece anyway they please. (3-D materials can be provided or brought in by individuals who seek to expand on their personal work but are not required) towards the end of class students will repeat the previous steps. At the end of day 1, everyone should have had two peers mark their papers.
- Clean up

# LESSON PLAN

Continued:

## Day 2

- Students will continue to work on their projects
  - Teacher throughout day two will go to each individual student to add to their paper
- Clean up

## Day 3

- Students will begin class with trading projects with one last groupmate
  - Continue towards completion
- If class needs more time to complete work a 4th work day can be added
- Clean up

# LESSON PLAN

Critique:

## Day 4

### Critique day 1

- - Hang up work on the walls and allow students to take part in a gallery walk
  - Critique process

## Day 5

### Critique day 2

- - Hang up work on the walls and allow students to take part in a gallery walk
  - Critique process
